

Theodoros Tsilivis

665 Commonwealth Ave, Boston, MA 02215, USA • tsilivis@bu.edu • [Website](#)

EDUCATION

- 2023 – Present **Boston University**, Boston, MA, USA
- PhD Candidate in Computing and Data Science.
 - Academic advisor: Kira Goldner
- 2016 – 2022 **National Technical University of Athens (NTUA)**, Athens, Greece
- BSc & MSc in Electrical and Computer Engineering (5-year degree).
 - Grade: 8.95/10 (top 5% in graduating class).
 - Orientation: Information Technology (Computer Systems, Computer Software, Systems, Automatic Control, and Robotics).
 - Thesis: “Mechanism Design for Combinatorial Auctions with Machine Learned Advice” (Grade 10/10).

RESEARCH INTERESTS

My interests lie in algorithmic mechanism design shaped by modern learning environments, with a focus on: (1) the interdependent values model, (2) incentive structures for emerging AI-driven markets, and (3) learning-augmented mechanisms.

PUBLISHED WORK

- **Bilateral Trade with Interdependent Values: Information vs. Approximation**, with Shahar Dobzinski, Alon Eden, Kira Goldner, and Ariel Shaulker. In Proceedings of the 26th ACM Conference on Economics and Computation (**EC 2025**).
- **From Welfare to Utility: Generalized Objectives in Budget-Feasible Procurement**: with Alon Eden, Eldar Kerner, and Kira Goldner. In Proceedings of the 43rd International Conference on Machine Learning (**ICML 2026**).
- **Knowing Who, Not How Much: Learning-Augmented Mechanisms for Consumer Utility Maximization**: with Kira Goldner and Divyarthi Mohan. In Proceedings of the 43rd International Conference on Machine Learning (**ICML 2026**).

AWARDS

- Wexler Fellowship (2023-24).
- Gerondelis Foundation Fellowship (2024-25).
- Eleni Gatzoyiannis Scholarship (2024-25), (2025-26).

INVITED TALKS

- Bilateral Trade with Interdependent Values - Northeastern Theory Seminar - In person (February 2026).
- Bilateral Trade with Interdependent Values - Harvard EconCS Seminar - In person (February 2026).
- Bilateral Trade with Interdependent Values - Boston University PhD Student Seminar - In person (October 2025).
- Recent Advances in Subadditive Combinatorial Auctions - Drexel Theory Reading Group - Virtual (October 2021).

PROFESSIONAL EXPERIENCE & PARTICIPATION

- Spring 2026 **Teaching Assistant**, [DS320](#): Algorithms for Data Science, Boston University, Boston, USA.
- Teaching Discussion lectures for 60 students.
 - Curating discussion, homework, and exam material.
- Nov 2025 **Volunteer**, Boston Economics and Computing Hub Workshops ([Beach Day](#) Fall’25), Boston, USA.
The workshop had 40 participants and lasted 1 day.
- June 2025 **Invited Poster**, Workshop on Algorithms, Learning, and Games ([ALGA’25](#)), Sardinia, Italy.
- April 2025 **Volunteer**, Boston Economics and Computing Hub Workshops ([Beach Day](#) Spring’25), Boston, USA.
The workshop had 60 participants and lasted 1 day.
- June 2024 **Volunteer**, The 3rd Workshop on Algorithms for Learning and Economics ([WALE’24](#)), Kefalonia, Greece.
The workshop had 150 participants and lasted 5 days.
- 2021 – 2023 **Undergraduate Research**, [Corelab](#), National Technical University of Athens, Greece.
- Co-organized CoreLab’s algorithms study group.

- Assisted in courses Algorithms and Complexity (2021-22, 2022-23), Discrete Mathematics (2022), and Computer Programming (2022-23).

SKILLS

- Algorithmic Game Theory, Randomized Algorithms, Approximation Algorithms.
- Fundamental Machine Learning theory (Supervised & Unsupervised), projects using torch, tensorflow, sklearn.
- Programming (Python, C++, C, Prolog, Standard ML, Matlab, HTML, SQL). Github [page](#).
- English (fluent), German (basic), Greek (native).

REVIEWING

- External Reviewer for *Easy Peasy at EC* (Workshop at **EC26**), *Reliable ML from Unreliable Data* (Workshop at **NeurIPS 2025**).
- External Sub-Reviewer for **SODA 2026**.f
